

🌟 ADD A MEMBER TO YOUR CO-OP'S DRIVEWAY THIS WINTER? 🌟

I'm looking for a place to park starting Dec 1st, and I'd like to help grow community.

Hello! **Jaguar Kristeller** here, and I live in a truck (Mae).

I'm a goofy, open-minded, curious soul with a passion for exploration and connection. I graduated MIT in 2016 with a degree in MechE (2A6) w/Robotics. Spent a lot of time building things at MITERS while studying. Lived in China from 2017-2022 and started a high school in Beijing. I taught myself Chinese and a bit of German.

I'm an aspiring vegan and would like to get more into cooking Chinese cuisine. I wake up early and sleep early (5am workout, 10pm sleep). I'm an active hockey and tennis player, and working on learning piano. My main projects now center around renovating my tiny home, and doing R&D prep-work for a volunteer project in Mexico making locally service-able emergency medical delivery drones (\$100/drone), which I will travel for in January (3-weeks). Currently looking for work in climate tech and reviewing: Advanced Controls, Modeling/Simulation, Compliant Mechanisms.

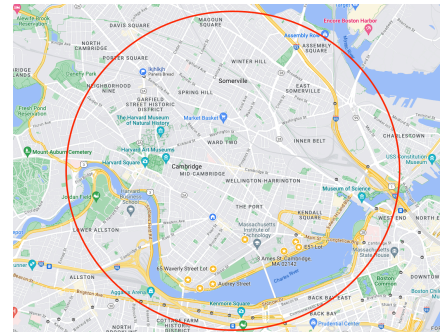

As for community, I'd love to share an early morning coffee or breakfast on weekends and/or cooking meals together once a week to twice a month. I would be down for the occasional relaxing evening board games, chess, Go, Twixt, or documentary. Excited to try hosting events and meet new friends!

Looking to rent **Dec 1st to at least Feb 15th**. Ideally more long-term if arrangement is comfy with everyone.

Needs:

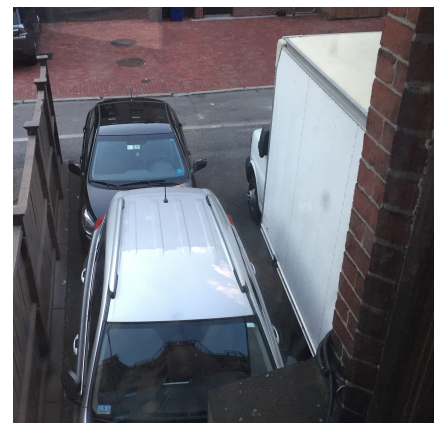

- **Driveway Parking Near Central Square:** ~10 min. motorcycle drive to Central, closer the better (Camberville area preferred).
- **Dimensions:** Mae measures in at 8'4" W, ~20' L, and 10'6" H.
- **Motorcycle Parking:** minimal footprint, 7' long, 3' wide
- **Electrical:** 120V/20A outlet, for winter heating, basic lighting.
- **Level Driveway:** for comfortable sleeping.
- **Weekend Accessibility:** need to move my truck occasionally for weekend outings and picking up materials.

Wants:

- **Community:** a housing co-op with curious and quirky individuals.
- **Reasonable Rent:** affordable parking w/amenities, (price roughly equivalent to if house-mate was living in a closet).
- **Amenities:** access to bathroom/shower, laundry, internet, and a kitchen for cooking Chinese recipes (**don't need space in fridge**).
- **Storage:** 5'x10' space in shed/basement for storing truck build materials and tools would be a huge plus.
- **Quiet Neighborhood:** driveway shielded from busy roads/sirens.
- **Mailbox:** cool to use house address for receiving mail/packages.

I'm excited to join your coop! If you have a spot in your driveway, and are looking for a curious goofy folk to join, please let me know!
